

## Notice of Public Information Centre

Municipal Class Environmental Assessment for the  
Water and Wastewater Master Plan

### The Study

The Municipality of South Huron is undertaking a Water and Wastewater Master Plan Update. This study is being conducted in accordance with the requirements of Phases 1 and 2 of the Municipal Engineers Association Municipal Class Environmental Assessment process for Master Planning. The Master Plan is following Approach #1.

This Master Plan Update will aim to develop and evaluate the optimal water and wastewater servicing strategies to support the needs of existing users and to support potential population and employment growth within the Municipality. This is a critical component in the integrated planning process and will provide the framework and vision for the water and wastewater servicing needs for the Municipality of South Huron. The Master Plan Update will form the basis for future, more detailed investigations for projects that are subject to the Environmental Assessment Act.

### We want to hear from you!

Public consultation is a key component of this study. The Municipality invites residents, agencies, and interested parties to participate in this planning process and learn more through attendance at a Public Information Centre (PIC). The PIC has been arranged to provide details about the study, the process used to decide possible solutions and the preferred servicing strategies, as well as allowing the public the opportunity to share comments and concerns. Members of the project team will be available at the PIC to answer questions and discuss the study progress to date.

**Date and Time:** April 16, 2024, 6:00 p.m. to 8:00 p.m.

**Location:** South Huron Recreation Centre  
94 Victoria Street East, Exeter
